**Gerontology Research Collaborative (GRC) & the
Stein Institute for Research on Aging**

Wednesday, June 14th

The Gerontology Research Collaborative (GRC) and the Stein Institute for Research on Aging are proud to announce the “In This Day & Age” Seminar Series, a reinstatement of our highly anticipated monthly seminar series. Our mission is to highlight cutting-edge and multidisciplinary aging research happening in this day and age within the San Diego community and beyond. Please join us for an exciting inaugural June session!

The **Gerontology Research Collaborative (GRC)** and
the **Stein Institute for Research on Aging** present:

IN THIS DAY & AGE

SEMINAR SERIES ON MULTIDISCIPLINARY AGING RESEARCH

Wednesday June 14th 10:00 - 11:00 am PT
UCSD MET 313 and Zoom
<https://uchealth.zoom.us/j/86285549705>

“Estimated Annual Spending on
Lecanemab and its Ancillary Costs in
the US Medicare Program”
Dr. John Mafi, MD, MPH
David Geffen School of Medicine
University of California, Los Angeles

Sponsored by the GRC and the Stein Institute for Research on Aging at UCSD. For questions, contact Howard Phang (hphang@health.ucsd.edu)

Description:

As we approach the anticipated FDA approval of the anti-amyloid drug, lecanemab, the medical community is preparing for a significant expansion in Medicare coverage. This transition, however, is coupled with lecanemab's substantial list price of \$26,500—a cost that could potentially increase premiums for Medicare's 60 million beneficiaries.

For our first seminar presentation of the season, we're delighted to present Dr. John N. Mafi. As an associate professor of medicine at UCLA and RAND, and a leading voice in healthcare value, aging, and policy, Dr. Mafi will shed light on the potential impact of lecanemab's approval on the U.S. Medicare program, emphasizing its financial implications for beneficiaries.

We invite you to join us in this insightful discussion as we navigate the potential changes in Medicare policy and explore their implications for the geriatric community.

Public Lecture Series

Barton W. Palmer, PhD on Wednesday, July 26th

The Stein Institute for Research on Aging and Center for Healthy Aging offer free public lectures promoting physical and mental well-

being and staying active throughout life. Join us for this popular series with renowned researchers and clinicians sharing their expertise with the community.

Please join us on July 26, 2023 at 4pm for a talk with Barton Palmer, PhD. Q & A to follow.

The flyer features a circular portrait of Barton W. Palmer, PhD, on the left. To the right, the UC San Diego logo is at the top, followed by the text 'Center for Healthy Aging Stein Institute for Research on Aging'. The main title 'Save the Date PUBLIC LECTURE' is prominently displayed in blue and yellow. Below it, the lecture topic is quoted: 'WHAT DO WE KNOW ABOUT HOW TO FOSTER MENTAL WELLBEING AS WE AGE?'. Further down, the text invites attendees to join a talk with Professor of Psychiatry, Barton W. Palmer, PhD, with a Q & A session. At the bottom, three icons indicate the time (4-5pm), date (Wed July 26), and platform (Zoom).

Please join us for a talk with Professor of
Psychiatry, Barton W. Palmer, PhD.
Q & A to follow.

🕒 4-5pm 📅 Wed July 26 📍 Zoom

Barton Palmer has been a member of the UC San Diego Department of Psychiatry Faculty for over 25 years, and a faculty affiliate of the Stein Institute for Research on Aging for over 15 years. He received his PhD in clinical and cognitive psychology from the University of Illinois at Chicago, and then completed a two-year clinical-research fellowship in neuropsychology at UCLA, and a subsequent postdoctoral research fellowship in geriatric mental health at UC San Diego prior to joining the faculty in 1997. His research interests have been varied across several aging-related topics, but current foci include the effects of loneliness and social isolation on physical, cognitive, and mental well-being and the use of positive mental health constructs and strengths-based interventions to promote mental well-being and social connectedness among older adults with or without neuropsychiatric disorders.
