

**Invest in a Future of Healthy
Aging: Anchor the Future with
Transformational Giving**

UC San Diego
SAM AND ROSE STEIN INSTITUTE
FOR RESEARCH ON AGING

Welcome to the UC San Diego Center for Healthy Aging and the Sam and Rose Stein Institute for Research on Aging e-newsletter!

Invest in a Future of Healthy Aging

Your Gift. Our Research. A Healthier Future for All.

We're back with the next issue of our Invest in a Future of Healthy Aging campaign, highlighting the power of transformational giving to anchor long-term impact. As the needs of an aging population continue to grow, sustained investment is essential to ensure stability, innovation, and resilience in the work ahead. Through visionary giving, we can secure the resources needed to advance bold ideas, respond to emerging challenges, and create lasting change that benefits individuals, families, and communities. Together, we are anchoring a future where longer lives are healthier, more connected, and more equitable.

ANCHOR THE FUTURE WITH TRANSFORMATIONAL GIVING

SECURE LASTING IMPACT

“
**How do we ensure breakthroughs
in aging science continue for
generations to come?**”

One gift can change everything. Endowed chairs like the one that brought Dr. Alison Moore to UCSD shape leaders and the future of healthy aging.

Your transformational gift can:

- \$2,000,000 endow a chair for the Scientific Director of Aging Research
- Legacy giving opportunities create lasting support for research and training

Invest in a Future of Healthy Aging

YOUR GIFT. OUR RESEARCH. A HEALTHIER FUTURE FOR ALL.

UC San Diego
SAM AND ROSE STEIN INSTITUTE
FOR RESEARCH ON AGING

At the Stein Institute, we know that endowed chairs play a crucial role in academic research and innovation. An endowed chair is a permanent faculty position funded by a dedicated gift, providing stable support for a scientific leader. This funding allows the chair holder to focus on pioneering research, recruit talented collaborators, and mentor the next generation of scientists.

By endowing a chair, such as the Scientific Director of Aging Research, you help secure strong leadership that drives discovery and advances healthy aging for decades into the future.

Legacy and planned giving options also allow donors to create a lasting impact, ensuring research and training continue uninterrupted to benefit all generations.
